Make sure your vehicle is clean and free from dirt, road grime etc. where the this product mounts. It is the riders responsibility to make sure the product is mounted and secure before each use. Loading the bag may result in a change of position, always check for proper mounting position after loading and before each and every ride.

**Rigg Gear cooler bags are designed with a universal mounting system for Motorcycles, ATV/ UTV, PWC or snowmobile.**

Prior to installing your cooler bag, fill with your favorite beverages and ice. Then install the optional shelf by placing on top of contents and onto the self-fastening straps inside the bag. This will help hold your contents in place and keep them from moving inside the cooler over rough terrain.

Position cooler on vehicle making sure the bag is centered and free from moving and hot parts. The bag can be mounted length ways (front to rear) or width ways across (left to right)

Next using the supplied loop straps, pass loop end around a secure part of the vehicle. Then pass the buckle through the loop and pull tight. Repeat with all straps. Connect male buckles to cooler bag. For UTV applications, pass strap around secure location thru holes in the bed, bed tie-downs or "D" rings.

Your cooler bag has a removable /replaceable liner. To remove liner simply pull top seam of liner apart from bag. It is secured with hook and loop self-fastening strips on to the opening of the bag. The liner can be cleaned with mild soap and water, do not use harsh chemicals. The waterproof liner is not warranted for puncture holes or leaking.
